Naga in Myanmar and India are being genocided by denying our Naga political rights,military occupation,uncountable human rights abuses,blocking all economic aces,banning of a good education system,poor healthcare,violating every right of Naga people,inhumanly using systematically all methods to end up all our Naga political aspiration and rights,they want us to live under their rule as enslaving all naga people.We the people of Naga do not need burmeses and indian's help.We can do ourselves for our better future.Why indian and burmeses are so against our right to educate,right to live with a good health,right to trade with the whole world,right to stand on our own Land as a sovereign Naga Nation..

Please,the good people of the world,we the Naga need you to recognize us as a sovereign Naga Nation.Allow us free to educate ourself by our own culturally n traditionally with a modern education,allow us to live with a good health,allow us to make our own money to trade with you all,allow us to visit to you and every where with a freedom.
